Chapel Brands Efforts to Hike Pay for Judges as 'Salary Grab'

By CHARLES E. CHAPEL

Assemblyman, 46th District

All of the judges in California want us to raise their salaries during this session of the Legislature. They have a lobbyist registered to represent them, and I am informed that he is especially busy working on Assemblymen and Senators who are lawyers for the very simple reason that no lawyer in the California State Legislature likes to vote against a salary grab for judges.

There is always in the mind of every lawyer-legislator the fear that if he does not vote for the salary boost, every judge will know about it and eventually some unprincipled judge will "get even" when the lawyer-legislator appears in court.

During the nine years that I have been in the Legislature, I do not remember any lawyer-legislator voting against any of the bills to raise the salary of judges.

I AM VERY willing to admit that years ago judges were not all paid well but today they receive handsome salaries and privileges. Giving them another pay boost this year is especially obnoxious because it is another excuse to raise taxes, all of which are already too high on the national, state, and county levels.

One argument proposed by the proponents of the salary boost for judges is that "a high paid judge is less inclined to become dishonest."

The fallacy in this argument is that honesty cannot be insured merely by paying high salaries. None of the judges are having any trouble getting enough to eat, hence there is no reasonable fear that they will steal loaves of bread to feed their starving grandchil- dren.

ANOTHER ARGUMENT in favor of raising the pay for judges is that it will "attract to the bench a higher type of lawyer." This argument is a peculiar one because most people assume that most judges on the bench now are men of great legal and moral caliber.

Perhaps those advancing this argument have in mind lawyers not already on the judicial bench. If this is the reasoning, it, too, falls flat because I personally know that there are in Los Angeles County alone at least 10 qualified lawyers waiting for each of the judges to die or retire so that they can have an opportunity to receive the prestige, glory, salary, and incidental benefits of a judge.

IF ANYONE who reads these comments disagrees with me, please write to me at State Capitol, Sacramento 14, and say: "I am willing to pay higher state and county taxes so that all the judges can have higher salaries."

If you agree with me, it is not necessary to write to me. Instead write to all other members of the Assembly and State Senators you know and say: "Vote NO with Chapel on the salary grab bill for judges. Keep taxes down."
